### SLEEP OVER

I know, I know, a (7) **Karen Orchard quilt** is not strictly a beauty product, but these ones are so gloriously beautiful they'd encourage anyone to take naps – and everyone knows how good sleep is for your looks. So I'm putting this in because I simply love it and everyone should have one! Priced from £95 for a cot-sized design, the quilts are available from Karen's stall on Portobello Road, or you can contact her on 020 7381 2017.

### SUN SCREENS

L'Occitane, the lovely company from the South of France that brings a touch of Cote d'Azur glamour to everything, have a range of water-resistant and hypo-allergenic sun oils and other products, including this (8) **SPF 10 Sun Lotion**. Priced from £13.95, call 020 7290 1421 for stockist details and mail order.

### FRESH FACE

One of my favourite products in recent weeks is this (9) **Flower Freshener** for the face from Neal's Yard Remedies – a delicious combination of orange flower, rosewater and witch hazel. Suitable for any skin type, it feels like heaven on hot days. It is priced at £4.70, call 020 7627 1949 for stockists, or 0161 831 7875 for mail order.

### SPOT ON

With so much hype around about all the latest products that claim to even out your skin tone, I thought I'd try (10) **Spotlight** by Estée Lauder. I was delighted to find a sensationally pink, pearlised cream that was wonderfully light and made my skin glimmer with a nice healthy glow. Priced at £23, it is available from good department stores.

### COSMIC POWERS

Based on the concept that 'electromagnetic vibrations of colour, aroma, sound and thought can heal our body', Tony&Tina cosmetics have brought out a face and body glitter called (11) **Cosmic Lights Sparkle**, £10.95, from Harrods. Higher Love, a light pink shade, is meant to promote laughter – and while I didn't fall into a fit of uncontrollable giggles, it did give me a wonderful glimmery silvery sheen that made me feel like I'd stepped out of a fairy tale.

### DIALLING TONE

The (12) **Variosun** system lets you alternate your sun protection factor according to your individual needs by means of a dial on the dispenser. This cuts down on waste and saves you money. The starter kit costs £11.99 and refill cartridges are £3.99 for Factor 2 and £4.99 for Factor 30. From Harrods or mail order on 0800 026 0220.
