

# NEW STUFF

The **Microsoft Zune** recently launched in America and though launch dates were touted in the UK for December it appears that we won't be seeing Microsoft's answer to the iPod over here until somewhere through 2007! Still, that at least gives Microsoft a year to sort out the issues with their mp3 player - it appears to have had a universal panning in the US!

The **iPod nano (PRODUCT) RED** is part of the burgeoning range of **(PRODUCT) RED** endorsed products.

When you buy one of these, not only are you purchasing the world's most popular digital music player in an awesome colour, but you are also contributing to the Global Fund to fight HIV/AIDS in Africa.

**4GB (1,000 songs) model: £129**

**8GB (2,000 songs) model: £169**

**Don't have a sad bag, have a Happybag!**

**Happybag** specialize in making funky but practical changing bag solutions. These bags look like something you would find in a Bond St shop and you would never guess that they hide every conceivable item relating to baby-changing mat, bottles, cloths, nappy bags etc. They also have a Dads Gear range, so dad will never be caught short again.

We have a competition on page 49, where you can win one of these great items!

**This month we have been mostly using...**

**ECOSOAPIA** has been awarded both the Chemical Consumer Award and Consumer Award from Allergy UK which is especially important for all those allergy sufferers. It is free from SLS, artificial colour, fragrances, synthetic preservatives and parabens and is suitable for vegetarians and vegans.

We have been using the **Eucalyptus Liquid Soap**, which we are mightily impressed with, though there are several variations available including **Rose Geranium** (pictured). It is available to purchase in 295ml bottles for £6.00.
